Rusty and Ken,

I have just been informed by David Weekly Homes that a few revisions to the site plan are necessary. I am not aware of the nature of the revisions, but do know that we need to request the application be tabled from Monday night's City Council meeting. As you know, this is primarily a site plan approval; and as such, we want to be sure the site plan being considered meets everyone's expectations and requirements. As soon as the revised plan is completed, we will submit to you for review; as well as, highlight the revisions.

Please confirm your receipt of this email, and we will follow up next week as well.

Thanks,

Kevin
