Agenda Date: 3/24/2021

Version: 1

Status: ATS Review

In Control: License and Variance Board

File Type: Variance Request

Agenda Number: D.

WARD / COUNCILMEMBER: Ward 3 / Travis Lindley

\$ IMPACT: N/A

Agenda Title:

Public Hearing - Increase accessory building size from 25% to 69% - Land Lot 453 -
908 Sharon Circle - William Gordon

ISSUE AND BACKGROUND: The applicant is seeking a variance to increase the accessory building size from 25% to 69% of the primary dwelling to allow for the construction of a new detached garage at 908 Sharon Circle. The maximum accessory structure size is required based upon the standards associated with Section 501 of the Zoning Code.

RECOMMENDATION / REQUESTED ACTION: The applicant is requesting to deviate from the development standards established by the City for the maximum accessory structure size of 25% of the main structure. According to Section 1403 of the Zoning Ordinance, variances must be reviewed under the following standards: (1) Whether there are unique and special or extraordinary circumstances applying to the property; (2) Whether any alleged hardship is self-created by any person having an interest in the property; (3) Whether strict application of the relevant provisions of the code would deprive the applicant of reasonable use of the property; and (4) Whether the variance proposed is the minimum variance needed. Community Development has reviewed the request against the variance review standards and found it to be in compliance with four (4) of the four (4) standards. At the time of this report, Community Development has not received any calls in opposition to the request. After a review of the standards above, Community Development believes that the variance will not adversely affect surrounding residents; therefore, staff recommends **approval** of the requested variance with the following condition:

1.Approval is conditioned upon substantial compliance with the site plan and elevation submitted with the variance application.
