Approved, but please provide a picture of the area you want to use. It's important that ingress and egress to the lot is not hindered.

Thank you,

James Burruss

Andre,

Approximately how many spaces are we talking about? That entire

side parking lot area or only a few surrounding your smoker?

Thank you,

James Burruss

Subject: Anniversary Party

Good Morning James

We are celebrating a year of being open for business and would like to host a "block party" on a Sunday in the parking spaces near my smoker. I'm currently getting permission from the city and they have asked to get permission from my land lord. We plan on blocking off the parking spaces where we cook outside, serve food and beer and wine. Please let me know if y'all will allow this so I can proceed with the city permits Thank you Andre
