CITY OF SMYRNA

Water and Sewer Availability

The City of Smyrna has determined that water and sewer are available to the proposed development. Both are located within the right-of-way of Spring Street and Madison Street.

Existing meters and sewer taps are to be used where possible. Any abandoned water and sewer taps shall be capped by the developer at the main. The developer is responsible for making all new water and sewer taps. Elevations are the responsibility of the developer.

No meters can be located in driveways or sidewalks. Sewer tap cleanout must be in metal boxes if located in driveways or sidewalks.

This information is based upon a zoning plan titled Pet Spa at Vinings Renovations by PWH Engineering, dated 7/14/17.

Sincerely,

Scott Stokes
Director Public Works
