**ZONING ORDINANCE
SEC. 1403. VARIANCE REVIEW STANDARDS.**

(a) In rendering its decisions, the License and Variance Board or Mayor and City Council shall consider the following factors:

- (1) Whether there are extraordinary and exceptional conditions applying to the property in question, or to the intended use of the property, that do not apply generally to other properties in the same district.
- (2) Whether any alleged hardship which is self-created by any person having an interest in the property or is not the result of mere disregard for or ignorance of the provisions from which relief is sought.
- (3) Whether strict application of the relevant provisions of the zoning code would deprive the applicant of reasonable use of the property for which the variance is sought.
- (4) Whether the variance proposed is the minimum variance which makes possible the reasonable use of the property.

Please include your narrative here, or you may submit a typed narrative as a supplement to this application.

COMPREHENSIVE NARRATIVE

I wish to tear down current house at 2475 Adams Dr. and replace with new house. The current house is in terrible condition and would require major capital expenditures to improve. By building a new house, this will increase values of all houses on the street and improve the neighborhood significantly. Also, there are many other new residences being built in the neighborhood.
