

Campbell High School Additions/Modifications
Extended Working Hours Request 02.02.2021

To: Rusty Martin
Director of Community Development, City of Smyrna GA

Permit Numbers:

- Grading Permit: 200409
- Performing Arts Center Permit: 200412
- Classroom Addition Permit: 200413
- Renovation Permit: 200414

Mr. Martin,

Please consider this letter our formal request for extended working hours at the Campbell High School project referenced above.

Due to school being in session the only available days to pour large concrete slab pours are Wednesdays and Saturdays. To complete this work, it requires a large concrete pump to be set up and pouring approximately 200 cubic yards of concrete at a rate of 30-35 CY per hour. Then the concrete must have time to cure before finishing. Due to the current climate in February and March, this activity takes 12-15 consecutive hours. Between now and April 1, 2021 we have seven (7) concrete pours of this magnitude scheduled to be completed.

Therefore, for these seven (7) concrete pours we request that the construction noise ordinance hours be extended from 4:00 AM – 7:00 PM. Given the fast paced and critical nature of the schedule and the variables of weather and unforeseen conditions on site we cannot identify exact dates at this time but can provide the City and neighbors with a 3–4-day notice of the activity.

Thank you for your consideration and please do not hesitate to call if you have any questions.

Sincerely,

Cody Miller, Project Manager, Carroll Daniel Construction
