REZONING ANALYSIS

Section 1508 of the Smyrna Zoning Code details nine zoning review factors which must be evaluated by the Planning and Zoning Board and the Mayor and Council when considering a rezoning request. Please provide responses to the following using additional pages as necessary. **This section must be filled out by the applicant prior to submittal of the rezoning request.**

- 1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.

Similar to recent new home developments over last 10 years

- 2. Whether the zoning proposal or the use proposed will adversely affect the existing use or usability of adjacent or nearby property.

No, the development will produce new homes more in keeping with adjacent homes in the community.

- 3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.

The property is now inconsistent with adjacent existing and new development in the city of Smyrna.

REZONING ANALYSIS (CONTINUED)

4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

The addition of one residential lot will not over burden city or county existing facilities.

5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan.

The subject property is located in in the City of Smyrna medium density designated zoning area. It will have similar lot sizes to adjoining new home communities.

6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

Approval would increase the value of the surrounding properties.

REZONING ANALYSIS (CONTINUED)

7. Whether the development of the property under the zoning proposal will conform to, be a detriment to or enhance the architectural standards, open space requirements and aesthetics of the general neighborhood, considering the current, historical and planned uses in the area.

Currently, this property is a mid 20th century rental home which is of minimal value to the adjacent homes. The proposed development homes will similar in style to the new homes in the community.

8. Under any proposed zoning classification, whether the use proposed may create a nuisance or is incompatible with existing uses in the area.

No, it would actually improve the window to the Old Concord Home Community.

9. Whether due to the size of the proposed use, in either land area or building height, the proposed use would affect the adjoining property, general neighborhood and other uses in the area positively or negatively.

The size and character of homes will be similar to the existing adjacent community,
