Mr. Ken Sudderth

**Re: Oakdale Self Storage
5218 Oakdale Road**

Dear Mr. Suddreth,

We are in the process of building the Oakdale Self Storage facility located at 5218 Oakdale Road. I am seeking permission to do some afterhours work. When we pour the concrete floors it takes several hours to complete the task of pouring them and many hours to finish the concrete. We cannot do the pours in the normal operating hours by the City of Smyrna. We also have issues with traffic due to concrete trucks coming back and forth therefore we are going to need traffic control. I have emailed the contact with the Police department to determine what needs to be done to help with traffic control.

I have received permission from Boral Brick to allow me to stage the concrete trucks in their parking lot prior to the concrete pours. The goal will be to have trucks ready to pour at 7 in the morning. I will hire a police officer to help bring the trucks into the site as this will be a high traffic time.

With the time of year that we are pouring these slabs, temperature is going to make the curing process slow. Therefore I will be finishing the concrete into the night that day. With this I will have to have possibly gas powered light stands and we will also be using gas powered finishing machines. Depending on the temperature this could take us up to 11 o'clock at night.

It is very difficult to come up with a schedule right now with all of the rain we have received lately, but the following dates are what I am aiming towards. This will be a total of 8 pours.

Week of December 7th
Week of December 28th
Week of January 11th
Week of January 25th
Week of February 8th
Week of February 22nd
Week of March 7th
Week of March 21st

Please do not hesitate to contact me with any questions or if you need any additional information.

Sincerely,

Wes Mitcham
