REZONING ANALYSIS

Section 1508 of the Smyrna Zoning Code details nine zoning review factors which must be evaluated by the Planning and Zoning Board and the Mayor and Council when considering a rezoning request. Please provide responses to the following using additional pages as necessary. **This section must be filled out by the applicant prior to submittal of the rezoning request.**

1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.

2. Whether the zoning proposal or the use proposed will adversely affect the existing use or usability of adjacent or nearby property.

3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.

Applicant believes the proposed zoning is a better economic use than what is currently zoned.

REZONING ANALYSIS (CONTINUED)

4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

Applicant believes the proposed zoning will not cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

Applicant is unaware of any other existing or changing conditions affecting the use and development of the property which give supporting grounds for disapproval of the zoning proposal. The quality of the proposed development and planned homes should be a welcome addition to the City of Smyrna.
