Re: Zaxby's Restaurant - 1420 Spring Road - Smyrna, GA 30080

Dear Mr. Boyles,

This letter shall serve as Dimension Construction's official request for approval for extended work hours. The hours we are requesting are as follow:

- Beginning either August 18th or August 19th, 2014, weather permitting, we would like to request to begin work at 3 AM to pour the slab. This request is due to the extreme heat during the days; we would appreciate being able to work in the cooler morning hours.
- For the following 30 days or more after the slab is poured, if approved, we request that we would be permitted to work until 8:00 PM in order to complete the project on schedule.

Please let us know at your earliest convenience if you will approve these extended hours.

If you have any questions or need additional information, please call me.

Sincerely,

Dineen Hite
