Person Requesting: Meredith Holt
Administrative Sergeant

Issue: The Police Department is requesting Mayor and Council approve FY2023 Law Enforcement Training Program Grant, awarded to us on October 6, 2022, through the Criminal Justice Coordinating Council.

Background: The Smyrna Police Department was given a firearms simulator by Glock about 5 years ago and it was already 15 years old. The technology and equipment are outdated, and several features no longer work on it. Since we opened the new training center this year, we now have the space for a new firearms simulator to train our officers and other agencies. The grant was awarded in the amount of \$37,800.00.

Requested Action: The Police Department has reviewed the grant and is in the process along with Finance to accept the grant before it's deadline on November 27, 2022. We are asking the Mayor and Council approve and accept the FY2023 Law Enforcement Training Program Grant.
