

CITY OF SMYRNA

2800 King Street / PO Box 1226, Smyrna, Georgia 30080

7 March, 2019

Ms. Tammi Sadler-Jones
City Administrator
City of Smyrna

RE: Parking restriction on Corn Road

Tammi,

Per your request, I have evaluated the conditions along the 1600 block of Corn Road.

- The existing roadway width is 18' from edge of paving to edge of paving. This is narrower than the City's standard roadway width for a residential street.
- It appears vehicles are parking on the South side of street. The street has no curb and gutter and there is significant rutting between the edge of paving and the sidewalk.
- A portion of the fence alongside the road has been damaged. It is likely the fence was damaged by errant truck maneuvers.

I understand the Chief of Police has evaluated the site and has recommended the installation of "No Parking" signs.

I also support the recommendation of installing "No Parking" signs for this area.

Please feel free to contact me with any questions or comments at (678) 631-5450 or via email at kmoore@smyrna.gov.

Sincerely,

A handwritten signature in cursive script that reads "Kevin Moore".
