SUBJECT: Recommendation - RFP 21-014 Door Locking System for Parks Restrooms

Request for Proposals for a new Door Locking System for Parks Restrooms was advertised on April 26, 2021. The new system would allow Parks staff to use our existing RFID cards to access the restrooms, provide the ability to monitor the door lock status remotely, provide motion sensor capability and update magnetic door locks and strikes.

Twenty-eight (28) firms reviewed the RFP requirements and we received two (2) proposals. The original request included updates to thirteen (13) restroom locations but total cost was over-budget. We selected eight (8) park locations based on priority and requested each firm to provide an updated proposal that met the requested criteria. Proposals were evaluated by staff from Parks & Recreation, Information Technology and Purchasing.
