A motion was made by Boardmember Emily Hein Warren to approve item 2016-375 for the zoning request (Z16-017) for the rezoning from NS to GC-Conditional for the construction of a 5,000 sq. ft. commercial building on 0.4 Acres, Land Lot 446 located at Belmont Circle by the applicant Yorkshire Real Estate Corporation; seconded by Boardmember Denny Campo.

E. Public Hearing - Zoning Request Z16-015 - Rezoning from R-20 to RAD-Conditional for the development one single-family residence - 0.405 Acres - Land Lot - 519 - 2495 Adams Drive - Ronald Dickinson

Sponsors: Anulewicz

Senior Planner Rusty Martin read aloud the following background for this item: Ronald Dickinson is requesting to rezone the property from R-20 to RAD-Conditional for the subdivision of the subject property into two lots per the 1950's plat. The applicant is proposing to leave the existing home on one lot and construct a new detached single family home on the second lot.

The subject property was originally platted as lot # 72 of the Belmont Subdivision in 1944. In 1950, Mr. & Mrs. Adams dedicated 10' of property along the long side of the property to the County for the creation of Adams Drive (a public street). During that dedication and replatting, lot #72 was subdivided into two lots. The first lot 70' by 100' and the second lot was 70' by 150'. These lots were recorded on the plat, but were never officially recorded with the tax office to become an official parcel of record. Since, the lots are below the minimum zoning standards of the R-20 zoning district, the property has to be rezoned to allow for the zoning proposal.

Elevations of the property were shown as well as the site plan. Subject property pictures were reviewed and adjacent property pics shown.

Community Development recommends approval rezoning the subject property from R-20 to RAD-Conditional for two detached single-family units at a density of 4.9 units per acre with the following conditions:

No elevation shall be comprised of 100% hardy plank siding. The residences whose lots abut external roadways shall not be permitted to utilize hardy plank for any elevation facing these roads.*
2. *The stormwater management facility shall be placed and screened appropriately to be unobtrusive to homes inside and outside the development. The storm water detention plan shall be designed to create at least a 10% reduction in a 2-year to 100-year storm event. The City Engineer shall approve all plans.*
3. *All utilities within the development shall be underground.*
4. *The developer shall be responsible for any traffic improvements (including additional right-of-way dedications) deemed necessary by either the City or the County during construction plan review. Sidewalks shall be provided by the developer inside the subdivision and outside the subdivision adjacent to any public right-of-way consistent with City's requirements for the extent of the development. A grass buffer with a minimum width of 2' shall be provided between the back of curb and sidewalk. The grass buffer may be waived if it is deemed unnecessary by the City Engineer.*
5. *No debris may be buried on any lot or common area.*
6. *The developer will comply with the City's current tree ordinance. All required tree protection measures shall be adhered to by the developer during construction.*
7. *All landscape plans must be prepared, stamped, and signed by a Georgia Registered Landscape Architect for any common areas or entrances.*
8. *All yards and common areas are to be sodded, and landscaped. Irrigate as appropriate.*

18. The applicant shall be bound to the elevations submitted and dated 8/12/2016. Approval of any change to the elevations must be obtained from the Director of Community Development.
