Re: King Springs Elementary School Extended Work Hours

Dear Mr. Martin,

To help ensure the completion of the phase two construction of the King Springs Elementary School, Balfour Beatty is requesting extended hours on Saturday and Sunday from 7:00am – 5:00pm from February 29th, 2020 through June 7th, 2020.

Given the adverse weather conditions we have faced these last two months we have been left with no other option but to request a noise ordinance exception to make certain all construction activities are complete before students return to the King Springs Elementary School campus for the fall semester.

As with normal working hours, Balfour Beatty will have supervision on site during the extended hours to ensure the work performed is done so within the criteria allowed by the City of Smyrna. If you wish to contact Balfour Beatty, please call our superintendent Doug Braun at 404.275.4753 or myself at 404.867.1242.

Looking forward to your favorable response and thank you in advance for your time and consideration.

Ana Maria Taroco
Sr. Project Manager
Balfour Beatty
