TO: Mary Moore, Library Director  
FROM: Kelly Brown, Purchasing Buyer  
DATE: December 13, 2016  
SUBJECT: Recommendation - RFP 17-008 Library Self-Check Machines

The City of Smyrna requested proposals from four (4) suppliers for two (2) self-check machines for the Library. Three (3) proposals were received. The suppliers were comparable in price when comparing equivalent unit types. Envisionware is the selected vendor due to the fact the Library already uses the Envisionware self-serve computer use and print systems – PCRes and LPT1 and the units can double as print release stations. This will maximize the functionality of the hardware and software. Envisionware also works with a credit card processor compatible with the city's system. We recommend purchase of three (3) units so that the existing Print Release station on the second floor will double as a self-check station. This purchase is still within the budgeted amount for this project. We recommend the award to Envisionware based on their proposal and pricing submission. **The total cost for three (3) self-check stations will be \$25,813.81.**
