CITY OF SMYRNA

WATER AND SANITARY SEWER AVAILABILITY

The City of Smyrna has determined that water is available to the proposed development. Water is available on both McLinden Avenue and Medlin Street. The developer is responsible for all taps and shall use existing taps where possible.

Sanitary sewer is available to the proposed development. Sewer is available on McLinden Avenue within the front yard of the proposed lot and on the other side of Medlin Street from the other proposed lot which will require a road bore. Elevations are the responsibility of the developer.

This information is based on a site plan titled McLinden Heights by Sean Murphy dated 06/14/14.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott Stokes", is written over the typed name and title.

Scott Stokes
Director Public Works
