**ZONING ORDINANCE**  
**SEC. 1403. VARIANCE REVIEW STANDARDS.**

(a) In rendering its decisions, the License and Variance Board or Mayor and City Council shall consider the following factors:

- (1) Whether there are extraordinary and exceptional conditions applying to the property in question, or to the intended use of the property, that do not apply generally to other properties in the same district.
- (2) Whether any alleged hardship which is self-created by any person having an interest in the property or is not the result of mere disregard for or ignorance of the provisions from which relief is sought.
- (3) Whether strict application of the relevant provisions of the zoning code would deprive the applicant of reasonable use of the property for which the variance is sought.
- (4) Whether the variance proposed is the minimum variance which makes possible the reasonable use of the property.

Please include your narrative here, or you may submit a typed narrative as a supplement to this application.

**COMPREHENSIVE NARRATIVE**

Due to the traffic on N Cooper Lake Rd and the angular building lines of the property, Applicant seeks  
a waiver of the 5 foot setback for a driveway turnaround.

The home will face a busy road with oncoming traffic from 2 opposite directions. The additional 5 feet is  
for the side entry garage turnaround. The turnaround will allow the homeowner additional safety to exit  
the property facing the oncoming traffic of N Cooper Lake instead of backing into it. In addition, there is  
a blind spot where N Cooper Lake Rd is elevated to the North. Additional precautions need to be in place  
to manage this dangerous circumstance. A side entry garage will also allow privacy from the busy road,  
N Cooper Lake.

The requested variance is not substantial and will not alter the characteristics of the adjoining  
and surrounding properties.
