not applicable

(To be completed by City)

Recommendation of Planning Commission:

Council's Decision:

CONTIGUOUS ZONING

North: R20 (Cobb County)

East: R20 (Cobb County)

South: R20 (Cobb County)

West: Mixed Use (City of Smyrna)

CONTIGUOUS LAND USE

North: Low Density Residential (Cobb County)

East: Low Density Residential (Cobb County)

South: Low Density Residential (Cobb County)

West: Mixed Use (City of Smyrna)

INFRASTRUCTURE

WATER AND SEWER

A letter from Scott Stokes, Director of Public Works Department is required stating that water is available and the supply is adequate for this project.

A letter from Scott Stokes, Director of Public Works Department is required stating that sewer is available and the capacity is adequate for this project.

- If it is Cobb County Water, Cobb County must then furnish these letters.

Comments:

TRANSPORTATION

Access to Property? via Dixie Avenue a public paved Right of Way

Improvements proposed by developer? add curb, gutter and sidewalk on the east side of Dixie Avenue
along entire property frontage and add a passive park with an amenity

Comments:

ZONING DISCLOSURE REPORT

Has the applicant* made, within two years immediately preceding the filing of this application for rezoning, campaign contributions aggregating \$250 or more or made gifts having in the aggregate a value of \$250 or more to the Mayor or any member of the City Council or Planning and Zoning Board who will consider this application?

No

If so, the applicant* and the attorney representing the applicant* must file a disclosure report with the Mayor and City Council of the City of Smyrna, within 10 days after this application is filed.

Please supply the following information, which will be considered as the required disclosure:

The name of the Mayor or member of the City Council or Planning and Zoning Board to whom the campaign contribution or gift was made:

n/a

The dollar amount of each campaign contribution made by the applicant* to the Mayor or any member of the City Council or Planning and Zoning Board during the two years immediately preceding the filing of this application, and the date of each such contribution:

n/a

An enumeration and description of each gift having a value of \$250 or more by the applicant* to the Mayor and any member of the City Council or Planning and Zoning Board during the two years immediately preceding the filing of this application:

n/a

Does the Mayor or any member of the City Council or Planning and Zoning Board have a property interest (direct or indirect ownership including any percentage of ownership less than total) in the subject property?

no

If so, describe the natural and extent of such interest: m/a

ZONING DISCLOSURE REPORT (CONTINUED)

Does the Mayor or any member of the City Council or Planning and Zoning Board have a financial interest (direct ownership interests of the total assets or capital stock where such ownership interest is 10% or more) of a corporation, partnership, limited partnership, firm, enterprise, franchise, association, or trust, which has a property interest (direct or indirect ownership, including any percentage of ownership less than total) upon the subject property?

No

If so, describe the nature and extent of such interest:

n/a

Does the Mayor or any member of the City Council or Planning and Zoning Board have a spouse, mother, father, brother, sister, son, or daughter who has any interest as described above?

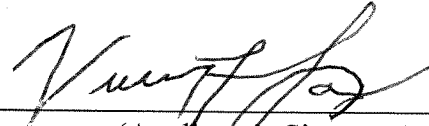

n/a

If so, describe the relationship and the nature and extent of such interest:

n/a

If the answer to any of the above is "Yes", then the Mayor or the member of the City Council or Planning and Zoning Board must immediately disclose the nature and extent of such interest, in writing, to the Mayor and City Council of the City of Smyrna. A copy should be filed with this application**. Such disclosures shall be public record and available for public inspection any time during normal working hours.

We certify that the foregoing information is true and correct, this 10 day of October, 2017.

(Applicant's Signature)

(Attorney's Signature, if applicable)

Notes

* Applicant is defined as any individual or business entity (corporation, partnership, limited partnership, firm enterprise, franchise, association or trust) applying for rezoning action.

** Copy to be filed with the City of Smyrna Zoning Department and City Clerk along with a copy of the zoning application including a copy of the legal description of the property.

REZONING ANALYSIS

Section 1508 of the Smyrna Zoning Code details nine zoning review factors which must be evaluated by the Planning and Zoning Board and the Mayor and Council when considering a rezoning request. Please provide responses to the following using additional pages as necessary. **This section must be filled out by the applicant prior to submittal of the rezoning request.**

1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.

The proposed zoning and use is consistent with and similar to the nearby infill development projects in the surrounding area and neighborhood. Therefore, the proposed zoning will permit a suitable land use.

2. Whether the zoning proposal or the use proposed will adversely affect the existing use or usability of adjacent or nearby property.

The subject property is located to the east of the Belmont Hills mixed use redevelopment project and is surrounded by single family residential homes. The proposed zoning and use will compliment the surrounding neighborhood and nearby infill development projects. Therefore, it will not adversely affect the use or usability of adjacent and nearby property.

3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.

The existing homes on the property are in much need or repair, improvements and updating. Therefore, it is not economically feasible to remodel and sell the homes. The benefits that will accrue to the broad community are greater than the cost of creating the project. Therefore the proposed re-development in this area would be the highest and best use of the property.

REZONING ANALYSIS (CONTINUED)

4. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities or schools.

The proposed zoning and use would add 2 residential dwelling units to the overall tract which should not cause an excessive or burdensome use of the existing infrastructure.

5. Whether the zoning proposal is in conformity with the policy and intent of the land use plan.

The future land use plan for the City of Smyrna depicts the subject property as being in a potential annexation area. The proposed zoning is similar to the nearby infill development projects. Therefore the zoning proposal conforms with the revitalization effort in the nearby area and the intent of the land use plan.

6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

The surrounding area is undergoing a revitalization effort. The annexation and rezoning of the subject property and the resulting redevelopment will improve the aesthetics of the neighborhood and continue the current trend. The annexation, rezoning and redevelopment will also provide the City with 2 new homes and improvements to the infrastructure which will be of benefit the community.

REZONING ANALYSIS (CONTINUED)

7. Whether the development of the property under the zoning proposal will conform to, be a detriment to or enhance the architectural standards, open space requirements and aesthetics of the general neighborhood, considering the current, historical and planned uses in the area.

The development plan is consistent with nearby infill development applications and will clearly enhance the aesthetics of the neighborhood. The architectural style of the new homes will compliment the historical and traditional standards of the City. The project is designed to provide large back yards and ample open space and common area which will be of benefit to the community.

8. Under any proposed zoning classification, whether the use proposed may create a nuisance or is incompatible with existing uses in the area.

The proposed "use" is similar to the surrounding area "uses". Therefore the proposed zoning classification or use should not create any nuisance or incompatibility with the existing "uses" in the surrounding area.

9. Whether due to the size of the proposed use, in either land area or building height, the proposed use would affect the adjoining property, general neighborhood and other uses in the area positively or negatively.

The proposed land use, size of the new homes, building heights, and lot areas are consistent with and similar to nearby infill development projects. Therefore the proposed development should have a favorable and positive affect on the the general neighborhood and other uses in the area.

CITY OF SMYRNA

2800 King Street, Smyrna, Georgia 30080
(770) 434-6600 / www.smyrnacity.com

WATER AND SEWER AVAILABILITY

The City of Smyrna has determined that sanitary sewer and water are available to the proposed development. Sanitary sewer is located within most of the right-of-way of Dixie Avenue. Depending upon lot location, a sewer main extension may be needed by the developer.

Water for the proposed development is within the right-of way of Dixie Avenue. It is the developer's responsibility to determine all elevations and make all water and sewer taps. Due to the location of both water and sewer mains, repaving of the roadway may be necessary.

This information is based upon a concept plat titled Dixie Ave. Tract by London Patterson Engineering Support Services dated 7/24/17.

Sincerely,

Scott Stokes

Subject: RE: 2475, 2485 and 2495 Dixie Avenue in Smyrna GA

Yes... I consider it in-growth because it's so few boxes and curb is on both sides. Were it a larger development it would require a kiosk.

Does that mean we can have 5 individual mailboxes? To clarify: one mailbox on each lot rather than a kiosk? Thank you so much

Good Afternoon Sylvia,

The Postal Service will allow curbside delivery for the attached 5 lots on Dixie Avenue in Smyrna.

Thank you,
Regina Hollomon

Subject: 2475, 2485 and 2495 Dixie Avenue in Smyrna GA

Hi Ms. Hollomon,

Please let me know if I need a mailbox Kiosk for the property depicted on the attached concept plan. The addresses are 2475, 2485 and 2495 Dixie Avenue. We are rezoning to redraw the lot lines and have 5 lots in place of the existing 3 lots in an existing subdivision. We would like to have 2 additional single family mailboxes if that would work for you. The street is (Dixie Avenue) and it is located in a very low traffic area with a 25 mile per hour speed limit. Please let us know what you will require and how it should be designed. If we do need a kiosk, please let me know if we will need a drive way and parking space for it, etc. Thank you so much for your help.

Executive Summary

Belmont Station Subdivision
Dixie Avenue
City of Smyrna, Cobb County, Georgia

TABULAR SUMMARY

Frequency Years	Existing Hydro 1 (cfs)	Pre-Volume Hydro 1 (cf)	Routed Hydro 4 (cfs)	Post volume Hydro 4 (cf)	Pond Elevation
2	0.8	1,698	0.001	17	1030.0
5	2.2	4,424	0.1	3,044	1030.4
10	3.7	7,302	0.1	6,139	1030.8
25	6.2	12,510	0.4	11,625	1031.5
50	8.1	16,313	0.6	15,578	1032.0
100	10.2	20,733	0.8	20,138	1032.5

Note: This is a preliminary study for the purpose of demonstrating to the City Engineer that the project has sufficient area designated to provide sufficient volume to comply with City storm water management requirements (Blue Book.) The zoning and annexation plat provides such excess volume that we have not attempted to adjust outfall to required reduction. The pond was first modeled with no outlet structure (hydrograph 3), then we deducted the required water quality volume (raised the bottom of basin to the elevation of the WQ volume 1029.3) and modeled with a 0.6' weir (hydrograph 4.) WQ volume was taken from the GA Stormwater Management Manual Stormwater Quality Site Development Review Tool, v2.0 (attached.)

In final design the pond and outlet structure will be adjusted to provide discharge flow at 90% of the current discharge rate. One area the pond will be adjusted will be the area of discharge where the berm will be moved away from the property line in order to provide a level-spreader and rip-rap to assure that sheet-flow replicates current conditions.

The subject property is a 1.31-acre compiled parcel of land previously developed with three houses and out-buildings. The lots front Dixie Avenue in a residential neighborhood with 1/3-acre average lot sizes. The majority of the site is grassland with good to fair cover and moderately sloping terrain. Currently the site drains easterly into a natural conveyance valley. No offsite area drains onto the property.

The proposed development will consist of five residential homes with driveways and parking. The roofs will be directed to downspouts and to grass swales which carry discharge to the detention/exfiltration basin at the easterly portion of the development.

This hydrology study was performed using the NRCS (SCS) method. A CN value of 72 which represents 1/3 acre lots in hydrologic group B was utilized for existing conditions and a weighted CN value of 75 was calculated for developed conditions based on 4 units per acre in group B soils. A lag time of concentration of was used for both pre and post developed conditions. The storm water basin was modeled with 22,848 c.f. of available storage while capturing 22,275 c.f. of the runoff volume with no outlet structure. When a modest 0.60 ft rectangular weir was added, the storage is reduced with the basin having 1.5' of freeboard. The basin was designed to provide water quality volume and store the additional volume produced for the 2-100 year storm to control post developed storm water runoff rates. Infiltration into the soil was not modeled but could be considered assuming an infiltration rate of 0.6 in/hr. for Cecil hydrologic soil group B soils.
