Approval of Resolution 2019-02 of the City of Smyrna Opposing House Bill 302 and Senate Bill 172, as it would prohibit local governments from regulating "building design elements" in single and double family dwellings.

Sponsors: Welch

City Administrator Tammi Saddler Jones advised Mayor and Council as to the background on House Bill 302 and Senate Bill 172. These Bills would prohibit local governments from regulating "building design elements" in single or double family dwellings, which could negatively impact economic development efforts and harm competitiveness. Appropriate local design standards and land use policies create a diverse, stable, profitable and sustainable residential development landscape. HB 302 and SB 172 are bills that would undermine self-determination of citizens to establish community standards. The City's Governing Body voiced its opposition to HB 302 and SB 172 entitled Preemption of Local Building Design Standards. City Staff supported the efforts of the Georgia Municipal Association (GMA) to oppose this bill.

Mr. Welch asked Community Development Director Ken Suddreth to explain the implications of such a bill.

Mr. Suddreth stated that the City has design standards and regulations that help keep the City looking nice. It was the way that the City was able to create such a unique and aesthetically pleasing downtown area. By passing such a bill, the State would be removing any control that local municipalities and the citizens that live there have over what their communities look like.

Mr. Gould said that one of the reasons citizens love living in Smyrna was that residents have the opportunity to have a say in what their communities look like through the Community Development Department and elected officials. Such a bill would take away the ability for those local to the area to make such decisions.

Before making a motion, Mr. Welch used the example of a picture of a pink house sent to him by a Mayor from another City. The house, roof, and driveway were all bright pink and if such a bill were to pass, this could be what your neighbor's house looks like.

Councilmember Charles "Corkey" Welch made a motion to approve Resolution 2019-02 of the City of Smyrna Opposing House Bill 302 and Senate Bill 172, as it would prohibit local governments from regulating "building design elements" in single and double family dwellings.
