Public Hearing - Variance Request - V17-033 - Allow side setback reduction from 10 feet to 0 feet for the construction of a carport on a single family residence - 0.18 acres - Land Lot 554 - 3683 Ashwood Drive - Givenski and Deborah Rogers

: The applicant is requesting a variance to reduce the side setback for 3683 Ashwood Drive from 10 ft. to 0 ft. for the construction of a carport on a single-family residence. The development standards established by the City for the R-15 district require a minimum front yard setback of 10 ft.

BACKGROUND: None.

RECOMMENDATION/REQUESTED ACTION: The applicant is requesting to deviate from the development standards established by the City for the R-15 zoning district, which requires a minimum side yard setback of 10 ft. The applicant is requesting a reduction of the side setback for 3683 Ashwood Drive to 0 ft. for a carport on an existing single family home. According to Section 1403 of the Zoning Ordinance, variances must be reviewed under the following standards: (1) Whether the circumstances are unique and special or extraordinary circumstances applying to the property; (2) Whether any alleged hardship is caused by any person having an interest in the property; (3) Whether strict application of the relevant provisions of the ordinance would deprive the applicant of reasonable use of the property; and (4) Whether the variance proposed is the minimum needed. Community Development has reviewed the request against the variance review standards and found it to be in compliance with four (4) of the four (4) standards. Similar variances have been approved throughout the city so no new precedent would be set. At the time of this report, Community Development has not received any phone calls regarding the variance request. After a review of the standards above, Community Development believes that the proposed amendment will not adversely affect surrounding residents; therefore, staff recommends **approval** of the requested

with the following conditions:

Approval of the requested variance shall be conditioned upon the development of the property in substantial compliance with the site plan submitted with the variance application.

2. Gutters and downspouts will be installed to divert stormwater away from adjacent properties.

REQUESTED ACTION: The License and Variance Board hold a public hearing per Section 1400 of the Smyrna Code.
