Public Hearing - Variance Request - V17-046 - Allow fence height increase in front yard from 4 feet to 5 feet - Land Lot 596 - 8.7 acres - 3130 Atlanta Road - Smyrna Presbyterian Church

The applicant is requesting a variance to increase the allowable fence height in a front yard from four feet to five feet at 3130 Atlanta Road for the purpose of installing a five foot metal fence on a corner lot. The maximum height for a fence in the front yard is required based upon the standards associated with Section 501.10 of the Zoning Code. The subject property is a corner lot with frontage on Collier Drive and Atlanta Road, thus creating two front yards.

BACKGROUND: None.

RECOMMENDATION/REQUESTED ACTION: The applicant is requesting to deviate from the City's maximum allowable fence height in the front yard (Section 501.10 of the Zoning Ordinance) at 3130 Atlanta Road. According to Section 1403 of the Zoning Ordinance, variances must be reviewed under the following standards: (1) Whether there are unique and special circumstances applying to the property; (2) Whether any alleged hardship is self-created by any person having an interest in the property; (3) Whether strict application of the relevant provisions of the code would deprive the property of reasonable use of the property; and (4) Whether the variance proposed is the minimum variance needed. Community Development has reviewed the request against the variance review standards and found it to be in compliance. Community Development does believe there are sufficient privacy and security concerns that justify approval of the request. Finally, several variances have been granted for similar requests throughout the City. At the time of this report Community Development has not received any opposition regarding the request. Therefore, Staff recommends **approval** of the requested variance.

REQUESTED ACTION: The License and Variance Board hold a public hearing per Section 1400 of the

Smyrna Code.
