<u>Public Hearing</u> - Variance Request - V21-107 - Allow 5-foot privacy fence in front yard on a corner lot - Land Lot 384 - 0.45 acres - 3861 N Cooper Lake Road - Kiana Baldon

## **ISSUE AND BACKGROUND:**

plicant is requesting a variance to allow for a 5-foot aluminum fence in the front yard on the corner lot at 3861 N · Lake Road. Section 503-A controls the location and height of fences in the Zoning Code.

**MMENDATION / REQUESTED ACTION**: The applicant is requesting to deviate from the development standards shed by Section 503-A, which requires a 4-foot fence in the front yard. According to Section 1403 of the Zoning ince, variances must be reviewed under the following standards: (1) Whether there are unique and special or dinary circumstances applying to the property; (2) Whether any alleged hardship is self-created by any person having rest in the property; (3) Whether strict application of the relevant provisions of the code would deprive the applicant of able use of the property; and (4) Whether the variance proposed is the minimum variance needed. Community pment has reviewed the request against the variance review standards and found it to be in compliance with four (4) our (4) standards. After a review of the standards above, Community Development believes that the encroachment will versely affect surrounding residents; therefore, staff recommends **approval** of the requested variance with the ag conditions:

proval of the requested variance shall be conditioned upon the development of the property in substantial appliance with the site plan submitted with the variance application.

ny part of the fence falls within the City's Right-of-Way and the City must work within the area, the fence y be required to be moved at the owner's expense.

e applicant shall ensure corner sight distance requirements are satisfied in accordance with GDOT

File #: 2021-485, Version: 1

veway and Encroachment Control Manual. The applicant shall coordinate the fence location along N Cooper Lake and with the City Engineer to ensure compliance with GDOT standards.
